Cording and sealing may be waived with the concurrence of the United States and Canadian Customs officers.

(d) *Treatment at U.S. port of arrival.* The list of samples properly authenticated shall be submitted upon arrival to the U.S. Customs officer at the port of arrival. After ascertaining that the samples are effectively corded and sealed, or that sealing has been waived, notation of the number of corded and sealed containers, or of the waiver shall be made on the list of samples and the list shall be retained by the Customs officer as a record of the shipment.

(e) *In-transit manifest.* Movement of the samples from the port of arrival to the port of exit from the United States under this procedure shall be under an in-transit manifest on Customs Form 7512 executed and filed in triplicate by the traveler at the port of arrival in the United States. Descriptions, quantities, and values may be shown thereon by noting "Commercial Samples," the number of corded and sealed containers, and the approximate total value of the samples. When cording and sealing has been waived with the concurrence of a Canadian Customs officer, samples must be identified on the manifest by suitable itemized descriptions and approximate values, or by attaching to the manifest a copy of the list of samples which has been initialed by the Customs officer.

(f) *Presentation of samples and manifest at U.S. port of exit.* The manifest on Customs Form 7512 shall be presented to the Customs officer at the U.S. port of exit, together with the samples covered. If the seals are broken or cording and sealing has been waived, the Customs officer shall verify that there are no irregularities.
